

# RChain Spring 2018 Developer Conference

The RChain developer conference brings together members of the core RChain development team, members of the RChain Cooperative community and others who have an interest in the development and use of the RChain platform. This Spring, we will discuss the work remaining to build, deploy, and create dApps on top of the RChain platform.

See below for event details, preliminary agenda, and a list of invited speakers.

**When:** April 17 & 18, 2018

**Where:** Boulder, Colorado

[Register](#)

## Agenda topics likely to include:

- **RChain core technology**
  - Rholang language, syntax, and semantics
  - Consensus - Correct-by-construction: Casper
  - RChain state
  - RChain storage layer
  - Namespaces & Sharding
  - RChain node management and production engineering
  - RChain wallets
- **RChain development**
  - RChain platform roadmap
  - Developing for RChain through the bounty program
- **Development on the RChain platform**
  - RChain Rhoc/Rev swap
  - Features planned for the RChain platform to support web applications
  - DApp architecture: going from data center to distributed design
  - Getting started with Rholang smart contracts
  - Reflective Ventures: a VC fund for organizations seeking to develop on the RChain platform

## Invited speakers:

- **Lucius Greg Meredith, President RChain Cooperative**
- **Nash Foster, CEO Pyrofex**
- **Mike Stay, CTO Pyrofex**
- **Vlad Zamfir, lead researcher Ethereum Foundation**
- **Medha Parlikar, Program Manager, RChain**
- **RChain core development team:** Michael Birch, Kyle Butt, Joseph Denman, Yaraslau Levashkevich, Keith McQueen, Alexander Pyatin, Timm Schäuble, Kent Shikama, Pawel Szulc, and Henry Till
- **Greg Huess, Reflective Ventures**
- **Jon West, Reflective Ventures**
- **Deanna Duke, RChain Coop**
- **Dan Connolly, RChain Coop**
